## **BUSINESS MANAGEMENT SYSTEM**

Ian Farmer Associates Business Management System is documented and is designed to:

- meet the requirements of BS EN ISO 14001:2004, and
- meet the requirements of Safety Manual
- provide employees with an awareness of the Business & Environmental Policies and procedures and a systematic method of working, to ensure that:

our Clients' requirements are met  
our Environmental responsibilities are met  
the Company's objectives are achieved;

The Business Management System is reviewed by Management and checked by routine internal and external quality and environmental audits.

Compliance with the system ensures a consistent method of working for employees to follow.
